LUCIFER, BY SNOWSTORM, WILL stand the present season a COTTAGE HILL, on the Frankfort and Georgetown lumpike, 3 miles from the Forks of bikhorn, and 7 miles from Frankfort, at \$15 to insure a colt, and pasturage furnished gratis to mares coming from a distance.

Description and Pedigree.

Lucifer is a black iron gray. 5 years old, with heavy white mane and tail: 15% hands high, and is a horse eminently calculated to produce stock suited to every purpose for which the horse is required. Being himself beautiful in appearance, or proper size, fautiless in form, mild and gentle in disposition, with action both tor harness and saidle rarely equalled, very few, if in dee i any, horse in Kentucky of his age can show greater trotting speed in harness, and it has been with great difficulty that he has been restrained from going all the saidle gaits, being sired by old snowstorm, who went one gait as naturally as another, and all with unparalleled speed and style, and produced more fine addle and harness horses in the two seasons he made in Kentucky than any other horse known. He was of he pure Norman French breed from Canada, and his colts are commanding wherever found extravagant prices. Lucifer's dam was a large brown mare; blood unknown; was a natural pacer and could, without training, pace her mile in 3 minutes.

ILFI invite the attention of breeders to this young horse, at his stand, where I have a good track, and where persons wishing to breed can have an opportunity of witnessing hisspeed.

The pale, weary looking wife smiled on her husband, as she handed him the baby, and said, pleasantly:

You shall not be late, dear. I will soon have all things ready. My head has ached badly all the atternoon, and this has kept me behind hand. 'I'm sorry for that, Anna Does it ache still?'

'I hope so, indeed. Give baby back to me .-I can hold her.' And the husband reached out his hands for little Maggy, who, pleased to re

'You must take her back, Mother,' said Mars ton, rising from the table, in about ten minutes, and reaching the baby to his wife. 'It is late, and I must be away, or the prayer meeting will open before I get there.'

But Maggy, who was very fond of her father, did not wish to leave him; and so struggled, af ter her mother had received her, and cried to be taken back.

'Papa must go, darling.' Marston bent down and tried to southe the grieving little one. As he did so, Maggy got her arms around his neck, and held on tightly. It took quite an effort to remove them.

As Marston shut the door of his dwelling be hind him and commenced walking rapidly away in the direction of the church at which prayer meeting was to be held, he was conscious of an uppleasant pressure upon his feelings. What did this mean? He began at once searching about in his mind for cause. At first, he could see nothing clearly; but gradually thought went back to the home he had just left, and to his pale, weary-looking wife and children; grieving be cause he had left them.
'Is this right?' The question came suddenly

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, dis ordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children.'

Its effects commence by deposition from the od of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous com-plaints, but they have far less power to withstand the attacks of other diseases; conse quently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or

One quarter of all our people are scrofulous;
their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affec tions which arise from it, such as ERUPTIVE and Skin Diseases, St. Anthony's Fire, Rose, or Erysipelas, Pimples, Pustules, Blotches, Blains and Boils, Tumors, Tetter and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DIS EASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIA. #### EDW'D EVERETT. OF MASSACHUSETTS.

Clerkship.

The office of Clerk of the Court of Appeals is among the most important to be filled by the people of Kentucky. We take it for granted that the Constitutional Union party intend to make a struggle to place one of their own number in that position; and certainly the present distracted condition of the Democracy is alone sufficient to induce our friends to hope for success. But success is impossible unless the various gentlemen who aspire to that position come to some arrangement by which but one candidate shall be presented. The Central Commit tee are without the power to determine who

The committee, however, feel it to be their duty to take some action looking to an adjust ment of the various claims of aspirants. They therefore desire that all of the gentlemen whose names have been mentioned in connection with this office and as the Union candidate, meet in this city on Tuesday night next, with a view to consult with the Central Committee, and other true and trusted friends of the cause, who will be

We will not permit ourselves to doubt but that all the aspirants who desire the cordial and hearty support of the Constitutional Union party will accede to this suggestion. Every impartial person will feel that this is the only feasible mode of a settlement of the difficulty. The aspirants must meet each other face to face and agree to act in a spirit of harmony and forbearance.

The committee have deemed it their duty not to call a Convention of the party, since the time between this and the election is too short to obtain, in that mode, a full and fair expression of opinion from the entire party.

In conclusion, we express, on behalf of the committee, the earnest hope that all of the Un ion aspirants for the Appellate Clerkship will meet in this city at the time already indicated P. M.

#### Strange Movements of the Seceders.

It was certainly, says the Richmond Va. Whig, an exceedingly strange movement on the part of the Seceders to nominate John C. Breckin ridge, in face of their opposition to the nomina tion of S. A. Douglas. For Breckinridge is a Squatter Sovereignty man himself, having gone 1:56, Breckinridge made a speech in Lexington. in Kentucky, in which he used the following lan

"Upon the distracting question of domestic slavery, their (the Democratic party's) position is clear. The whole power of the Democratic organization is pledged to the following proposi ons: That Congress shall not intervene that subject in the States, in the Territories, or in the District of Columbia; that the people of each Territory shall determine the question for themselves, without discrimination on account or the allowance or problemtion of slavery."

It will thus be seen that Breckinidge takes the Douglas ground, that "the people of each Ter ritory, 'in their Territorial capacity, shall admit \$150 per annum. or exclude slavery at their discretion-which is uatter Sovereignty, pure and un adulterated! He goes further, and affirms that Congress shall not intervene for the protection of slavery in the Territories; while the Seceders mantain that it is the solemn Constitutional duty of Congress to "intervene" invariably for the these two ages. "protection" of slavery in the Territories, when ever such protection may be necessary. It was the denial and repudiation of this "doctrine of protection," by the Douglas men at Charleston, which caused the Gulf State Democrats to secede And now these Seceders have nominated Breck inridge, who occupies the position of Douglas on this "protection doctrine," and who is about as deep in the mire of Squatter Sovereignty as Douglas is in the mud! Are the Seceders not consistent-over the left?

We understand that prominent gentlemen in different parts of the State are urging JACOB Swiger, Esq., the former Clerk of the Court of Appeals, to become a candidate to fill the vacan ey in that office. And we understand that if i is the general wish of the Constitutional Union party Mr. Swigert will consent to run for the of ace. His name will, of course, be used in con nection with the office at the consultation as to who should be the candidate, which will take place next Tuesday. There is certainly no man in the State who has superior qualifications.

The anniversary of the Declaration of American Independance was generally observed in our city, by the closing of business houses and the cessation from labor by the citizens generally. The several Sabbath Schools celebrated the day by pic nics and speaking, and the military of our city went to Lexington, to attend a grand military parade. We understand that the day passed off as pleasantly to all concerned, at each place, as could possibly bave been the case in such extremely hot weather. For ourselves we tried by staying quietly at home, with the sick to keep cool, but found it a very difficult matter

The Baltimore Republican finally de clares for Breckinridge, though with a heavy heart. "It is a matter of deep regret," it says, "to feel that we are to battle with a powerful foe while our own forces are divided. But we shall do our duty and leave the results to that over ruling Providence who can evolve light out of darkness, and give the victory to those who will best serve the great purposes of his Govern-

HOT AND COLD BATHS.

The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT TERS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a reputation heretofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or blazoning puffery The consumption of Hostetter's Stomach Bit ters for the last year amounted to over a halt million bottles, and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare nedicinal properties contained in the preparation, and the sanction of the most prominent physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials to its efficacy in all cases of stomachic derangements and the diseases resulting therefrom.

This is not a temporary popularity, obtained by extraordinary efforts in the way of trum peting the qualities of the Bitters, but a solio estimation of an invaluable medicine, which is destined to be as enduring as time itself.

Hostetter's Stomach Bitters have proved a Godsend to regions where fever and agua counted their victims by hundreds. To be able to state confidently that the "Litters" are a certain cure for the Dyspepsia and like diseases, is to the proprietors a source of un alloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, and imparts renewed vitality to the nervous system g ving it that tone and energy indispen able for the restoration of health. It operates upon the stomach, liver, and other digestive organs mild y but powerfully, and soon restores them to a condition essential to the healthy discharge of the functions of nature.

Elderly persons may use the Bitters daily as per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic. and rejuvenating generally. We have the evidence of thousands of aged men and women who have experienced the benefit of using this preparation while suff ring from stomach de-rangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their cares are so harassing that many of them sink under the trial. The relation of mothe. and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear of body and mind is generally aggravated. Here then, is a necessity for a stimulant to recupe rate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bitters to all other invigora tors that receive the endorsement of physi cians, because it is agreeable to the taste as well as certain to give a permanent increase of bodily strength.

All those persons, to whom we have particu larly referred above, to wit: sufferers from fever and ague, caused by malaria, diarrhoea, dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids, persons of sedentary occupation, and nursing mothers, will const their own physical welfare by giving to Hos tetter's Celebrated Stomach Bitters a trial.

CAUTION .- We caution the public against using any of the many imitations or counter feits, but ask for Hostetter's Celebrated STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters' blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the
